APPLICATION SCENARIOS

Corporate conference rooms

Seamless BYOM with one-cable USB-C connectivity — laptops connect instantly to displays, cameras, microphones and room collaboration systems.

Executive boardrooms

Premium meeting experiences with dual-display support, flexible device integration and centralised control for presentations and decision-making.

Training & collaboration spaces

Dynamic content sharing, multi-presenter access and reliable connectivity for interactive training sessions, workshops and team collaboration.

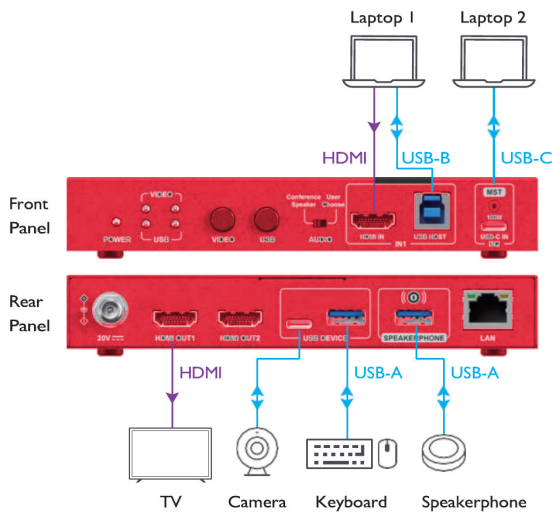

Hybrid meeting rooms

Convenient integration between personal devices and dedicated room systems, so remote and in-room participants collaborate on equal terms.
